

# Tables

Proportional columns, alignment, striping and a total row.

| Description                          | Qty | Unit price | Amount           |
|--------------------------------------|-----|------------|------------------|
| Document generation licence — annual | 1   | £149.00    | £149.00          |
| Template design and setup            | 6   | £70.00     | £420.00          |
| Priority support — first year        | 1   | £180.00    | £180.00          |
| Data migration, per environment      | 3   | £95.00     | £285.00          |
| <b>Total</b>                         |     |            | <b>£1,034.00</b> |

Columns are fractions of the measure, not points, so the table fits whatever page and margin it is given. A cell too long for its column is measured and truncated rather than allowed to collide with the next one.
